

Artificial Intelligence

The intelligence that scales your expertise

Why OREL IT AI Services?

Proprietary AI stack
faster development, lower cost of adoption

Automated, human-verified annotation
scalable training through every model without sacrificing accuracy

Dedicated R&D labs, AI accelerators
rapid prototyping through to commercialization

Certified AI engineers
trustworthy, enterprise-grade deployments

Innovative AI Solutions Across Industries

From Research to Real-World Impact

Scalable and Enterprise-Ready Deployments

Applied Intelligence Across

Retail

Data-led planogram intelligence, replacing template guesswork with store specific shelf plans; live in production since 2021 across retail, pharmacy and fuel-retail chains.

Healthcare

AI-assisted telehealth extending clinician capacity; in veteran reintegration programmes, 3× therapist capacity and 65% less admin time per patient—HIPAA and FHIR-aligned.

Fashion

Computer vision that reads product attributes — type, size, colour, design — streamlining digital cataloguing.

Education & Enterprise

Conversational AI turning internal knowledge into instant, natural-language answers.

OREL AI Core Services

- Natural Language Processing
- Agentic Process Automation
- IoT & Edge Intelligence
- AI Engineering & MLOps
- AI / Computer Vision
- AI Consulting & Advisory
- Data Science & Decision Intelligence
- Agentic AI & Finance Risk Modeling
- AI Research & Development

Certified Standards:

ISO 27001 · ISO 27701:2019 Gizlilik Bilgi Yönetim Sistemi · ISO 27017:2015 · GDPR

Turn AI ambition into practical solutions that improve efficiency, accelerate innovation, and unlock growth.
