ORELMSP

Continuity you can trust.
Technology that never stops.

Follow-the-sun coverage

Hand-offs across continents for **round-the-clock support**

One model, every industry

from IT support, to coworking access-control overhauls, to **zero-disruption cloud migrations**

L1–L3 support, one SLA, one contract

a single point of **accountability**

Reliable Service
Consistent & Accurate

Scalable Workforce
Flexible & Ready

End-to-End Expertise
Cloud, Security & IT

Why OREL IT Managed Services?

24/7 monitoring, not office-hours coverage — incidents are worked on continuously, not queued.

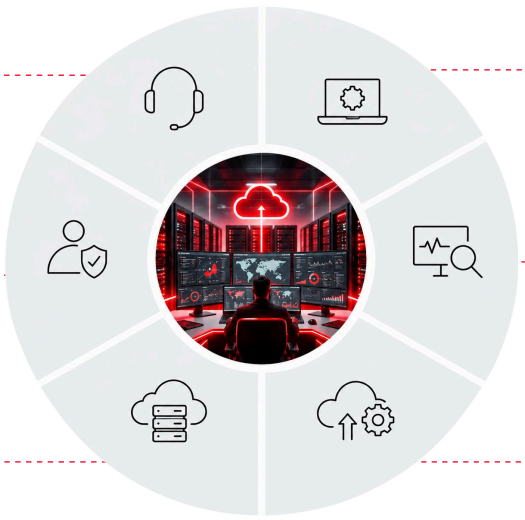

One partner, one contract — support, access management, security operations and cloud management under a single SLA.

Security built in — Web Application Protection and centralized access management as standard, not an add-on.

Enterprise expertise without the enterprise headcount — top-tier IT support at a fraction of in-house team cost.

OREL CLOUD Core Services

- Helpdesk & End-User Support
- User & Access Management
- Cloud Infrastructure Management
- Remote & Onsite IT Support
- Endpoint Monitoring & Management
- Cloud Resource Provisioning

Certified Standards

CISSP (ISC2) · CISA · CISM · OSCP · ISO 27001 Lead Auditor · Huawei Certified HCIA Security · Huawei Certified HCIA Cloud Service · AWS Certified Solutions Architect Associate · Microsoft Certified Azure AI Fundamentals

Simplify IT with **one partner** managing your **support**, **access**, **security**, and **operations** — all under one contract.
